

Sept Pas Lotus

flute and harp (or lever harp)

According to the legend, the newborn infant Buddha immediately stood up and took seven steps. And at each step a lotus blossom appeared where his feet had touched the ground.

Seven steps in seven directions: North, South, East, West, Heaven, Earth and Center.

Seven steps, seven lotus blossoms: the symbol of Buddha's teachings to help find one's own way to Enlightenment.

Seven steps, a promising start on the young musician's way to inner and artistic fulfillment.
